

04

In the following pages, you will find a blank canvas to plan your activity combining outdoor education, garden-based learning and STEAM methodology.

Remember to identify:

- Expected learning goals
- Needed material and space
- Group composition and age
- STEAM disciplines involved
- Location
- Expected duration
- Brief description of the activity and main steps
- Tips for the implementation

MAKE YOUR LESSON PLAN

How can you adapt the activity to different age groups? How can you engage the parents? How can you reach the expected goals? How can you involve the local community?
